

CZECHIA BUSINESS DELEGATION

accompanying the Minister of transport of the Czech Republic,
H.E. Martin Kupka, to Morocco

18-20 February 2025

Environmental Machines

SINCE 1992

Laski company was founded in 1992 and its main activities are currently focused on the production of machines designed and intended for municipal services on a professional basis and sales of combustion engines.

Its principal products are especially stump cutters, chippers, shredders, trenchers and leaf exhausters. The company is also engaged in the sales of Kohler engines or other equipment, such as turf cutters etc.

The manufacturing plant is located in the Czech Republic and the Laski products are exported to 50 countries worldwide, such as Australia, Chile, India, the USA and in particular to the EU states. The company's export sales represent about 90% of its total output. At the same time the Laski products conform to all applicable environmental requirements, EU standards, regulations and directives.

Greetings!

We are honored you are holding this brochure in your hands right now and we hope you will find it useful for getting to know more about companies in Czechia in order to start successful business relationships with companies in Morocco.

The mission is focused on Czech companies operating in the fields of railway infrastructure, smart mobility, transport innovation, road safety, and civil aviation, including drones.

The program will include business forums in Rabat (on February 20) and Casablanca (on February 19) featuring B2B meetings, networking and the opportunity to visit selected businesses/projects in these locations. A social gathering of the business delegation with the Minister, the Ambassador and other representatives of the Embassy of the Czech Republic in Rabat is also planned.

We look forward to meeting you.

CZECH CHAMBER OF COMMERCE

Na Florenci 2116/15, 110 00 Prague 1

www.komora.cz

Dear Ladies and Gentlemen,

It is my great pleasure to welcome you to this business mission to Morocco, which represents an important step in strengthening our cooperation in the field of transport infrastructure, transport industry, smart mobility and innovation. Our focus during this visit is on railway transportation and road safety—two crucial areas for sustainable and efficient mobility in both of our countries.

Morocco has been making significant strides in modernizing its transport infrastructure, and the Czech Republic is ready to contribute with its advanced technologies, systems and expertise. I am particularly pleased that our delegation includes leading Czech entrepreneurs, researchers and industry who will actively participate in B2B meetings, networking events, workshops and forums.

In addition to fostering business connections, this mission also aims to address key challenges in transport safety, innovations and smart solutions in transport and for our cities. Our goal is to share best practices and introduce innovative solutions that enhance efficiency and safety in transportation systems.

This visit also marks an important milestone in our broader economic and scientific relations. By engaging in meaningful discussions and collaborative projects, we can further deepen bilateral ties between the Czech Republic and Morocco, for the prosperity of both nations.

I wish you all a successful and productive mission, filled with inspiring discussions and valuable new partnerships.

Thank you.

Martin Kupka

Minister of Transport of the Czech Republic

Ladies and Gentlemen,

Let me please address you on behalf of the Czech Chamber of Commerce as the leader of our business mission to the Kingdom of Morocco. This mission is accompanying Minister of Transport of the Czech Republic, H.E. Mr. Martin Kupka, and focuses on companies in the field of rail infrastructure, smart mobility, transport innovation, road safety and civil aviation, including drones.

Our delegation consists of companies that are already involved in ongoing projects in these sectors, as well as companies looking for new business and investment opportunities.

In our delegation, there are representatives of prominent companies specialising in transport and logistics, vehicle production, information and automation technologies. The companies are renowned for their pioneering innovations, technical expertise, and unwavering pursuit of excellence. They are ready and excited to establish long-lasting partnerships with their Moroccan counterparts. We are certain that the visit will significantly contribute to the economic ties between the Czechia and Morocco. Through productive dialogue and joint efforts, we can explore new pathways for investment, trade and cooperation that promises benefits and growth.

I am very pleased that the Czech Chamber of Commerce can assist you in finding new partnerships and joint projects.

I wish you many successful business meetings!

Jana Havrdová

Vice President of the Czech Chamber of Commerce

We were founded in 1999 and, over time, grew to become part of the larger CZECHOSLOVAK OCEAN SHIPPING GROUP. Thanks to this group, we have expanded our services and now offer comprehensive international transportation solutions to customers worldwide. Together with an extensive network of agents, we continue to broaden our service portfolio for various types of cargo.

We provide services in maritime, air, rail and land transportation, including oversized, hazardous, bulk, liquid, refrigerated and frozen goods. Our team also includes specialists in RO-RO transport, valuable cargo, and goods requiring special licenses. Additionally, we offer container sales and rentals, as well as customs declaration services.
